Answers For Fan Cart Physics

Place fan A on the cart and turn it on by clicking the ON/OFF button below. 1. Look at the blue lines coming from the fan. In which direction is the air pushed? Air is pushed to the left. 2. Press Play and observe the cart. In which direction does the cart move? The cart moves right. By blowing to the left, the fans exert a force on the cart that pushes it to the right.

Answers For Fan Cart Physics

of Newton's Laws by experimenting with a cart (on which up to three fans are placed) on a linear track. The cart has a mass, as does each fan. The fans exert a constant force when switched on, and the direction of the fans can be altered as the position, velocity, and acceleration of the cart are measured. Full Lesson Info
