Bmw E46 Manual Transmission Fluid

The following are steps highlighting replacing the transmission fluid in a BMW E46 with a manual gearbox. Drive your vehicle for about five minutes to warm the transmission fluid. Jack up all four corners of your vehicle. I suggest using four jack stands and slowly raising the vehicle to the required height.

Manual Transmission Fluid Your manual transmission can take a heck of a beating over the years and it is one of the most neglected service areas on a car. The fluid assists in the lubrication and heat disputation of the transmission, and even though it is in a closed environment, the fluid can become old and contaminated.

BMW 3-Series E46 (1999-2006) - Transmission & Clutch ...

The BMW Repair Guide recommends at a minimum an E46 transmission service fluid and filter change every 60,000 miles. This recommendation is for "normal" driving conditions. If you track/race your vehicle or are a more aggressive driver, we suggest a BMW E46 transmission service even more frequently.

BMW Transmission Fluids, Oils, Additives | Automatic ...

BMW doesn't recommend replacing fluids other than oil and brake fluid as they have an unfortunate "lifetime fluid" recommendation. Although they say their "lifetime fluid" never needs to be replaced, it should be at around 50,000 miles. Changing the fluids this often will ensure a long service life for all of these components as well as increase the quality of your vehicles overall driving ...
