Direct practice in social work constitutes one-on-one contact with people at the micro level and is usually identified as working with people directly at the individual, group, or family level. Rather than specifying a particular theory, direct practice is seen as an eclectic process structured by the problem-solving process with the guiding underlying

that trains social workers to work with clients in establishing specific and achievable goals based upon their concern for therapy. Through this model, social workers empower clients to drive their therapy by asking what they most want to work on to address their problems.

Theories & Practice Models Used in

Download Ebook Direct Social Work Practice Theory **Social Work**

Social work revolves around service, but is inherently interdisciplinary in nature. The social work profession occurs where individuals, communities, and society intersect. Subjects like sociology, psychology, criminology, economics, education, health, and political science are all essential to this field.
