Economics of Regulation and Antitrust | Amazon.com.br

Economists did not lobby for, or even support, the antitrust statutes. Rather, the passage of such laws is generally ascribed to the influence of populist "muckrakers" such as Ida Tarbell, who frequently decried the supposed ability of emerging corporate giants ("the trusts") to increase prices and exploit customers by reducing production.

Antitrust - Econlib

Departing from the traditional emphasis on institutions, Economics of Regulation and Antitrust asks how economic theory and empirical analyses can illuminate the character of market operation and the role for government action and brings new developments in theory and empirical methodology to bear on these questions.
