Of the two, they say, meaning-making has much more impact on long-term memory than sense-making. Yes, content must make sense to students in order for them to learn it. They must understand facts, labels, connections, subsets, algorithms, processes, stipulations, conclusions, causes, effects, principles, theories, rules, and logical reasoning.

Making Sense of Evidence. This section helps students and teachers make effective use of primary sources. "Making Sense of Documents" provide strategies for analyzing online primary materials, with interactive exercises and a guide to traditional and online sources. "Scholars in Action" segments show how scholars puzzle out the meaning of different kinds of primary sources, allowing you to try to make sense of a document yourself then providing audio clips in which leading scholars ...

### **Making Sense of Evidence**

To help students learn to synthesize information across their sources, Martha and Steve were intentional in planning instruction that would nurture students' understanding of how to make sense of information drawn from several sources that might have varying points of view. Their plan included providing clear purposes for reading-viewing-listening to multiple sources, organizing sources so they were easy for students to access, using anchor texts to model the kind of thinking students ...
