The Black Lives Matter movement (BLM) tries to portray itself as a grassroots movement, a spontaneous uprising of the oppressed in the inner city. However, it is a well-funded conglomeration of communist/socialist organizations that have been around for decades. Now they are united and are a major force, trying to provoke a civil war or a race war.

These stories concern the origin and the nature of the world, the lives and activities of deities, heroes, and mythological creatures, and the origins and significance of the ancient Greeks' own cult and ritual practices. Modern scholars study the myths in an attempt to shed light on the religious and political institutions of ancient Greece and its civilization and to gain understanding of the nature of myth-making itself.
