Reliant Car Complete Engines for sale | eBay

Support the engine/gearbox assembly by positioning a jack under the engine sump, using a block of wood between the jack and the sump to spread the load. Remove the nuts and bolts, (four on models with a 750cc engine, three on models with an 850cc engine), attaching the gearbox support bracket to the chassis cross member mounting.

removing a Reliant engine - Manky Monkey Motors

The Reliant Robin is a small three-wheeled car produced by the Reliant Motor Company in Tamworth, England. It was offered in several versions (Mk1, Mk2 and Mk3) over a period of 30 years. It is the second-most popular fibreglass car in history, with Reliant being the second-biggest UK-owned car manufacturer for a time.

Reliant Robin - Wikipedia

The Reliant Kitten was the 4-wheeled version of the 1970s Reliant Robin, designed to replace the Rebel and featuring the 850 cc version of Reliant's own engine, which was introduced in 1975 (with the Reliant Robin gaining the engine shortly afterwards). The design this time featured very heavily on the Reliant Robin with only the nose of the design being different, having square headlights and a black panel around them – this was done mainly for cost-saving reasons so the parts from both ...

Reliant Motors - Wikipedia

Reliant engineers had increased the engine torque by 7.3% to 49.5 lb.ft which resulted in a 14.3% reduction of engine speed.

This new Rialto had a claimed fuel economy of 73.3 mpg gallon and despite having decreased power (37.5bhp instead of the usual 40bhp) it was said to race past 90 mph with ease with a top speed in excess of 100 mph.

Reliant Rialto History - Reliant Motor Club

I also bought a Reliant Rialto for its 850cc engine. The early history of the car is not known. During the 1970s the chassis of the car was shortened, with the position of the engine moved from front and centre (like a Lotus Seven) to a position to the left of the driver, the format that most Class C cars follow today.

Reliant Robin (3 wheeler)-1974. The Robin replaced the Regal. It has a fiberglass body attached to a box steel chassis. It features a rear opening window that soon became a trend used on cars around the globe. The rear seats folded down for full use of the 30 cubic foot luggage compartment. Thousands were produced and shipped world-wide, and the Reliant Robin became one of the most famous three-wheelers in England.
